

Not your average, but your BENCHMARK!

South African truckers have grown accustomed to expect **best in class** products from **Bandag**. Innovation is central to ensuring that **durability, quality** and **reliability** are not compromised! This infectious spirit to innovate has once again gripped **Bandag!**

Bandag Southern Africa is proud to announce the launch of not one, but two, **Next Generation Application Specific®** products.

BDR-HG is a premium product for the long haul and regional drive applications for fleets that refuse to compromise outstanding performance for outright muscle. **BDR-HG** is engineered to deliver serious traction plus superb mileage and all this, in a gripping fashion. Besides shoulder and centre tie bars to increase stability and handling, **BDR-HG** offers open shoulders and deep sipes for continued traction and excellent grip.

BDV2 is the latest addition to the **Application Specific®** range and is dedicated to the Bus and Urban Delivery markets. Like its predecessor, **BDV2** is set to be the next **Benchmark** in its application. **BDV2** offers a lighter casing friendly tread design. Its wide shoulders and wide tread area together with the latest in rubber compounding technology ensure an optimum wear rate (km/mm).

Bandag's range of **Application Specific®** products now boasts an improved product offering geared to offer best in class products for your trucking needs. It is testimony to Bandag's commitment of continuous innovation to deliver **Application Specific®** products that are **not your average, but your BENCHMARK!**

With Bandag, you don't have to be a tyre expert. You just have to know one!

Bandag specialises in the manufacture of retreads and best-in-class after sales service. That's what we do!
