

More than 50 years ago, BANDAG came up with a better idea for RECYCLING tyres

In 1957, Bandag introduced a unique process that made tyre retreading reliable and economical. Today, the retread industry recycles millions of truck tyres every year. This achievement not only keeps tyres out of landfills and protects our planet, but through continuous innovation, today's Bandag retreads also use less fuel and make trucking fleets more efficient. Maybe that's why we've hung around for so many years.

Do you still think RECYCLING is GREEN? We'd like to believe it's BLACK...

With Bandag, you don't have to be a tyre expert. You just have to know one!

For more information on how you can benefit contact Bandag today on +27 11 439 6000 or visit www.bandag.co.za.

BRING IT ON!

With the reliability you get from Bandag, your fleet can take on anything.
